TRADE WITH AI

V6.2.39 CUSTOMER PURCHASE & SOFTWARE LICENCE AGREEMENT

NinjaTrader 8 • Electronic Signature Ready • 7-Day Money-Back Guarantee

IMPORTANT

This Agreement governs paid access to Trade with AI V6.2.39. Trading software does not guarantee profit. Futures and leveraged trading can result in substantial loss. Mandatory consumer rights that cannot lawfully be excluded remain unaffected.

Seller / Licensor	Trade with AI – seller details as stated in the website Legal Notice / Impressum at target-bot.com
Licensed Product	Trade with AI V6.2.39 (Hybrid Arbiter build) for NinjaTrader 8

Trial	A separate 14-day free evaluation may be offered before purchase
Payment	Approved payment methods displayed on target-bot.com, including PayPal and approved cryptocurrency payment
Customer Record	Full legal name, email, selected plan, NinjaTrader registered email/ID where required, electronic signature, automatic date/time and payment reference

1. Purpose and Agreement Scope

This Agreement governs the purchase, activation and use of the Trade with AI V6.2.39 software licence. The software may include the strategy, companion indicator, dashboard controls, execution modes, Hybrid Arbiter, Order Block / OB Retest functions, risk-management tools and related customer documentation applicable to the licensed build.

Separate products such as Trade with AI Forex, Trade with AI Crypto and Copy Trader Pro are not included unless the order confirmation expressly states otherwise.

2. Licence Grant and Term

After successful payment and activation, the Seller grants the Customer a personal, limited, non-exclusive, non-transferable and non-sublicensable licence for the selected licence term.

- 1 Month: expires one month after paid activation unless renewed.
- 3 Months: expires three months after paid activation unless renewed.
- 6 Months: expires six months after paid activation unless renewed.
- Lifetime Access: a non-expiring licence to the purchased Trade with AI product edition, subject to this Agreement, platform compatibility, product availability and applicable law. It does not guarantee perpetual availability of NinjaTrader, exchanges, market-data services, third-party APIs or every future major product.

3. Activation, Customer Identity and Device Security

The licence may be linked to the authorised Customer, NinjaTrader registered email or user identifier, Machine ID, activation status and approved device information for licensing, anti-copying, support and security purposes, subject to applicable data-protection law.

The Customer must keep licence files, credentials and installation packages secure and must promptly report suspected unauthorised access.

4. Strictly Prohibited Conduct

- Copying, sharing, publishing, reselling, renting, sublicensing, transferring or distributing the software, DLLs, installation files, licence credentials or protected documentation.
- Reverse engineering, decompiling, disassembling, decoding, extracting, modifying, cloning or attempting to discover source code, algorithms, strategy rules, signals or internal operation, except only where applicable law cannot permit such restriction.
- Circumventing or tampering with Machine ID, expiry, licensing, security, update, anti-copying or verification controls.
- Using the software or confidential documentation to create, train, improve or assist a competing or substantially similar product or service.
- Removing copyright, trademark, attribution or proprietary notices.

5. Trading Risk, No Advice and No Performance Guarantee

Trade with AI is trading automation / decision-support software. It is not financial, investment, legal or tax advice.

Futures and leveraged trading involve substantial risk and can result in loss of all or more than the amount deposited. The Customer remains solely responsible for the selected account, contract quantity, risk settings, broker, prop-firm rules, platform configuration, connectivity and every trading decision.

Signals, filters, backtests, simulations, demonstrations, screenshots, historical examples and hypothetical results do not guarantee future performance. No profit, win rate, fill quality or specific trading outcome is promised.

6. Customer Testing and Operating Responsibility

The Customer is strongly encouraged to use Playback or simulation before any live use, verify the correct instrument, contract month, chart timeframe, account, order quantity, stop, target, daily limits and active execution mode, and supervise open positions.

The Customer should maintain an independent emergency method to close positions and cancel working orders if software, platform, broker, data or connectivity behaves unexpectedly.

7. Delivery, Updates and Support

Delivery and licence activation are provided electronically after payment and completed acceptance of this Agreement.

Reasonable installation and technical support may be provided. Support does not include personalised investment advice, profit promises or responsibility for customer trading decisions.

Updates may change functions, settings or compatibility. The Customer should review release notes and test material updates in simulation before live use. The Seller may discontinue obsolete or unsafe builds where reasonably necessary.

8. 7-Day Money-Back Guarantee

In addition to any mandatory consumer rights, the Seller offers a contractual 7-day money-back guarantee for the Customer's first paid Trade with AI purchase, subject to the conditions below.

- The refund request must be sent in writing within 7 calendar days after the first paid licence activation date.
- The Customer must identify the purchase and payment reference and cooperate with licence deactivation.
- After a refund is approved, the paid licence terminates and the Customer must stop using and delete all licensed software copies and protected files under the Customer's control.
- The guarantee refunds the eligible software purchase price actually paid. It does not reimburse trading losses, prop-firm fees, brokerage fees, exchange or market-data fees, VPS/computer costs, third-party subscriptions or other consequential losses.
- The guarantee does not apply to fraudulent payment activity, deliberate licence/security abuse, unauthorised copying, resale or repeated purchases made after a previous refund for the same customer/device.

- For cryptocurrency payments, the Seller will confirm the refund method before processing. The refund is based on the eligible USD-equivalent software purchase amount actually paid, subject to unavoidable blockchain/network fees.
- This contractual guarantee is additional to, and does not reduce, non-waivable statutory consumer rights.

9. Digital Delivery and Consumer Rights

Where the Customer requests immediate digital delivery or licence activation during any statutory withdrawal period, the website checkout/signing flow should obtain any express consent and acknowledgement required by mandatory law.

Nothing in this Agreement is intended to exclude or restrict consumer rights that cannot lawfully be waived. The separate 7-Day Money-Back Guarantee remains available according to Section 8 even where statutory withdrawal rules are affected by immediate digital performance.

10. No Warranty

To the maximum extent permitted by mandatory law, the software is provided on an 'as is' and 'as available' basis. The Seller does not warrant uninterrupted, error-free or profitable operation, continuous market/data connectivity, compatibility with every broker, prop firm, computer, NinjaTrader version or third-party service, or perfect order fills.

11. Limitation of Liability

To the maximum extent permitted by applicable law, the Seller is not liable for indirect or consequential loss, lost profits, trading losses, missed trades, account or prop-firm losses, data loss, third-party outages or market events arising from use or inability to use the software.

Nothing excludes liability that cannot lawfully be excluded, including liability for intentional misconduct, gross negligence, personal injury or mandatory consumer rights where applicable.

12. Suspension and Termination

The Seller may suspend or revoke a licence where there is reasonable evidence of non-payment, fraud, unauthorised copying, resale, reverse engineering, licence circumvention, security abuse or material breach of this Agreement. Termination for Customer breach does not create a refund right beyond mandatory law or the express guarantee terms.

13. Governing Law and Disputes

This Agreement is governed by Austrian law, excluding conflict-of-law rules, except where mandatory consumer-protection law requires otherwise. Mandatory jurisdiction rights of consumers remain unaffected.

Before court proceedings, the parties should first attempt in good faith to resolve the dispute in writing.

14. Entire Agreement and Electronic Records

This Agreement, the selected order/plan, the applicable website disclosures and the official product documentation form the agreement for the licensed purchase. If marketing material conflicts with this signed Agreement, the signed Agreement controls to the extent permitted by law.

Electronic signatures, electronic acceptance records, automatic date/time stamps and electronic copies may be used to the extent permitted by applicable law.

Electronic Acceptance & Signature Record

WEBSITE SIGNING NOTE

For online use, the website form should record the customer's typed full legal name, electronic signature, selected plan, email, and an automatic date/time stamp before trial activation or payment access.

Selected Plan	☐ $99 Monthly ☐ $279 / 3 Months ☐ $499 / 6 Months ☐ $749 Lifetime
Customer Email	____
NinjaTrader Registered Email / ID	____
Order / Payment Reference	____
Immediate Digital Activation	☐ I request immediate digital delivery / activation after payment and acceptance
Risk Acknowledgement	☐ I understand that trading involves substantial risk and no profit is guaranteed
7-Day Guarantee	☐ I have read and understand the 7-Day Money-Back Guarantee terms
